Sensitive Tummy & Wellness Tips

- Transition foods slowly over 7–10 days.
- Use smaller meals for pets with digestive upset.
- Plain pumpkin may help occasional tummy issues.
- Fresh water should always be available.
- Avoid overfeeding treats.
- Watch for itching, vomiting, bloating, or loose stool.
- Speak with your veterinarian for persistent concerns.

Important: Every pet is unique. Always consult your veterinarian for personalized feeding and health advice.
